Comment

I support

Sensible redevelopment of redundant Brownfield land.

Conservation of the historic natural and built environment.

A better social, economic and housing tenure balance.

Small scale settlements – such as originally suggested for Highnam.

Maintenance of the ecology and biodiversity of the area.

Infrastructure improvements prior to development – i.e. schools, doctors, dentists, traffic open space, local facilities.

Local green space/green buffering.

Zero carbon building standards.

Better public transport to reduce car dependency – including;

Park & Rides at Brockworth/ Shurdington, and Uckington.

Light rail/tram link.

Junction 10 upgrade to four-way.

Local Bus services.

Meeting any demand for more local jobs.

A fair say in our future.

I oppose

The JCS area overall housing numbers.

Cheltenham's overall housing number.

Up Hatherley Way and Chargrove Lane proposed development.

Development of valued or productive Greenfield land.

Harm to the historic natural and built environment.

Threats to the ecology and biodiversity of the area.
